

# SEALEGS 6.1M D-TUBE

**SEALEGS**<sup>®</sup>  
BE AMPHIBIOUS

The Sealegs 6.1m D-Tube is the only all-aluminium hulled craft in the Sealegs family, making it the perfect Sealegs for fishing trips and getting through rough terrain.

The state-of-the-art sport console featured on the D-tube can be customised to suit your needs. Upgrade the Go7 all the way up to an NSS12, or choose to add additional Fusion Signature Series Speakers to the console for music on the water - among others.

The 6.1m D-Tube encapsulates the best of Sealegs technology in a rugged, agile package.

## Sealegs Amphibious Enablement System (AES)

AES provides a fully integrated, turn-key amphibious package.

- Hydraulic transmission powered by a 22HP Honda engine
